Introduction

The pursuit of Level 3 Accreditation for our Bachelor of Science in Computer Science (BSCS) program at Cavite State University – Naic Campus is a testament to our unwavering commitment to academic excellence, continuous quality improvement, and the holistic development of our students. Integral to achieving this elevated standard is the strategic cultivation and maintenance of robust linkages with key external stakeholders.

This narrative profile elaborates on the comprehensive network of partnerships that define our BSCS program, extending far beyond the confines of our campus in Bacoar, Cavite. These linkages are not merely administrative formalities; they are dynamic, mutually beneficial collaborations meticulously designed to ensure our curriculum remains at the forefront of technological advancements, our graduates are highly competitive and socially responsible, and our faculty members are continuously engaged in cutting-edge practices.

We believe that meaningful engagement with industry, academic institutions, government bodies, and professional organizations is paramount to fostering an educational environment that is responsive to the rapidly evolving demands of the global IT landscape. This section will detail the nature, impact, and strategic intent behind each of our pivotal partnerships, demonstrating how they collectively enrich the learning experience, drive innovation, and ultimately contribute to the realization of our program's Vision, Mission, Goals, and Objectives (VMGO) and the production of highly competent and ethical computing professionals.

1. Well-defined Objectives

The BSCS program of the Information Technology Department aims to develop strong linkages with industry, government, academic institutions, and non-profit organizations to:

1. Enhance curriculum relevance by aligning it with current industry trends and emerging technologies through academic and industry partnerships.

1.1.1 CHED Memorandum Order (CMO) No. 25 Series of 2015 (See *figure 1*) with subject of revised policies, standards, and guidelines for BSCS, BSIS, and BSIT programs.

Republic of the Philippines
OFFICE OF THE PRESIDENT
COMMISSION ON HIGHER EDUCATION

CHED MEMORANDUM ORDER (CMO)
NO. 25 ;
Series of 2015

SUBJECT : REVISED POLICIES, STANDARDS, AND GUIDELINES FOR BACHELOR OF SCIENCE IN COMPUTER SCIENCE (BSCS), BACHELOR OF SCIENCE IN INFORMATION SYSTEMS (BSIS), AND BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY (BSIT) PROGRAMS

In accordance with the pertinent provisions of Republic Act (RA) No. 7722, otherwise known as the "Higher Education Act of 1994," in pursuance of an outcomes-based quality assurance system as advocated under CMO 46 s. 2012, and by virtue of the Commission en banc Resolution No. 268-2015 dated May 25, 2015 the following policies, standards and guidelines (PSGs) are hereby adopted and promulgated by the Commission.

ARTICLE I
INTRODUCTION

Section 1 Rationale

Based on the Guidelines for the Implementation of CMO 46 s 2012, this PSG implements the "shift to learning competency-based standards/outcomes-based education." It specifies the 'core competencies' expected of graduates of Bachelor of Science in Computer Science (BSCS), Bachelor of Science in Information Systems (BSIS), and Bachelor of Science in Information Technology (BSIT), "regardless of the type of HEI they graduate from." However, in "recognition of the spirit of outcomes-based education and ... of the typology of HEIs," this PSG also provides "ample space for HEIs to innovate in the curriculum in line with the assessment of how best to achieve learning outcomes in their particular contexts and their respective missions ..."

The field of computing is ever dynamic; its advancement and development had been rapid and its evolvement is a continuous process (O'Brien, 2008). To face the challenges of advancement, the Commission recognizes the need to be responsive to the current needs of the country. It is essential and important that the country's computing capability be continually developed and strengthened to be at par globally.

It is the objective of the Commission to develop and promote the Policies, Standards and Guidelines (PSG) for BSCS, BSIS and BSIT, to provide a minimum standard for Higher Education Institutions (HEIs) offering or intending to offer these programs. The PSG is developed with consultations from all stakeholders, from the academe to industry (Sarmiento, 2009).

The PSG contains provisions that cultivate the culture of excellence in offering these programs. This is in line with the vision of the Commission to have HEIs produce competent graduates that shall cater to the needs of the industry. The PSG is also designed for all HEIs to exercise their innovativeness and creativity in the development of their curricula in the offering of BSCS, BSIS, and BSIT programs (RA 7722, 1994).

Figure 1. CHED Memorandum Order (CMO) No. 25 Series of 2015

Promulgated in accordance with Republic Act (RA) No. 7722, also known as the "Higher Education Act of 1994," and building upon previous guidelines like CMO 46 s. 2012, this order signifies a pivotal shift towards outcomes-based education (OBE). It outlines the core competencies and learning outcomes expected of graduates, while also providing HEIs with the necessary flexibility to innovate their curriculum based on their unique contexts and missions. The issuance of CMO 25, s. 2015 underscores CHED's commitment to ensuring the quality, relevance, and global competitiveness of computing education in the Philippines, addressing the dynamic and ever-evolving landscape of the information technology field.

1.1.2 A proposal to revise the BS Computer Science Curriculum

In 2015, CHED released CMO No. 25 which is the Revised Policies, Standards, and Guidelines for ITE programs in anticipation of the outcome of K-12 implementation in the Philippine education system. The program has been reviewed to incorporate modern developments in Information and Communication Technology (ICT) and digital technology towards globalization, and introduce emerging engineering technology courses. This is also in response to the University's strategic direction towards a Research University, wherein the CEIT will transform its offering from professional graduate programs to research graduate programs in the goal to produce morally upright and globally competent ITE graduates for global competitiveness (*See figure 2*).

CAVITE STATE UNIVERSITY (CvSU)

1.1.3 Certificate of program compliance of Bachelor of Science in Computer Science Course

Certificate of program compliance (COPC) based from provisions of Republic Act (RA) No. 7722 were shown in figure 3 below.

CERTIFICATE OF PROGRAM COMPLIANCE (COPC) **No. 020 Series 2022**

In accordance with the pertinent provisions of Republic Act (RA) No. 7722, otherwise known as the "Higher Education Act of 1994," and by virtue of **CHED Memorandum Order (CMO) No. 14, series of 2019**, this Certificate of Program Compliance (COPC) certifies that **CAVITE STATE UNIVERSITY-NAIC**, Bucana Malaki, Naic, Cavite, complies with the prescribed minimum requirements of CHED to offer the **BACHELOR OF SCIENCE IN COMPUTER SCIENCE** program, effective **Academic Year 2021-2022**.

This Certificate of Program Compliance (COPC), however is subject to revocation if the herein institution fails to maintain the prescribed standards for the program. Furthermore, this COPC does not extend to any branch or satellite campus of the institution.

Issued at **Quezon City**, this **27th** day of **January 2022**.

2. Provide internship and on-the-job training (OJT) opportunities for students in collaboration with tech companies and government agencies.

To bolster these crucial experiences, the department diligently organizes OJT Partnership Fairs. These events serve as crucial platforms connecting students with accredited companies and government agencies, facilitating practical, real-world experience. Furthermore, pre-internship readiness workshops are conducted to equip students with essential workplace ethics, communication skills, and professionalism, preparing them for successful immersion experiences.

ACTIVITY PROPOSAL

Title: Inclusive Disaster Risk Response: Integrating Gender Perspectives for Resilient Communities

Proponent: Information Technology Department (ITD)

Participants: Selected Sanguniang Barangay of Naic, Cavite

Venue: CvSU Naic and Offices of the participants

Duration: 2 Days

Date: April 25, 2025 and May 16, 2025

ITD Budget: Php 20,000.00

GAD Budget: Php 10,000.00

Rationale
 The Information Technology Department (ITD) recognizes the need for technology in disaster preparedness and response. As part of its community engagement, capacity building, and inclusive development initiatives, the ITD aims to implement a technology transfer and dissemination initiative. This initiative will focus on the Mobile Application for Disaster Preparedness, benefiting the Sanguniang Barangay of Naic, Cavite.

This initiative will be integrated into each barangay's disaster preparedness plan, equipping local officials and community members with both technical skills and knowledge essential for effective emergency response. By combining hands-on life-saving techniques, this initiative fosters a community-based disaster risk management, ensuring that communities are resilient and inclusive.

Guided by GEDSI (Gender Equality, Disability, and Social Inclusion) program will actively promote the participation of women, senior citizens, youth, and other vulnerable sectors in both planning and implementation processes. By ensuring accessibility, gender representation, this initiative aims to empower all members of the community, recognizing their unique needs and capacities in disaster preparedness.

6.1.2 Activity proposal of ARDAN's technology transfer and integrated with basic life support and maneuver training

Republic of the Philippines
CAVITE STATE UNIVERSITY
 Don Severino delas Alas Campus
 Indang, Cavite

EXTN-QF-08

TRAINING, SEMINAR/WEBINAR, OR ACTIVITY PROPOSAL

**Technology Transfer and Dissemination of Disaster Risk Management Mobile Apps
(Integration with Basic Life Support and Maneuver Training)**

Proponent/s: Information Technology Department

I. Rationale:
The Information Technology Department recognizes the crucial role of technology in disaster preparedness and response. As part of our commitment to community engagement and capacity building, we aim to conduct a **technology transfer and dissemination** activity focused on the **ARDAN'S Mobile Application for Disaster Preparedness**.
This initiative will be integrated into a **Basic Life Support and Maneuver Training**, providing participants with both **technological and practical knowledge** essential for emergency preparedness. By combining digital solutions with hands-on life-saving techniques, this activity ensures a **comprehensive approach** to disaster risk management.
This project aligns with the **United Nations Sustainable Development Goals (SDGs)**, particularly: **SDG 3: Good Health and Well-Being** – Promoting access to life-saving skills and preparedness in emergencies; **SDG 11: Sustainable Cities and Communities** – Enhancing community resilience through digital innovation; **SDG 13: Climate Action** – Strengthening disaster risk reduction and response capabilities.

Objectives:

1. To transfer and demonstrate the functionality and benefits of disaster risk management mobile applications.
2. To train participants on how to utilize digital response.
3. To promote collaboration between IT professional and communities in disaster risk reduction effort.

Mechanics of Implementation:

1. The **technology transfer** session will provide participants with the skills to navigate and maximize the **ARDAN'S Mobile Application**.
2. The **Basic Life Support and Maneuver Training** will be conducted by experienced trainers, focusing on emergency response techniques.
3. A **simulation exercise** will be held to integrate the learned skills to disaster scenarios.
4. Open **forum and feedback** to enhance the effectiveness of the training system.

Training Committee:

6.1.3 Memorandum of Agreement (MOA) for ARDAN's Technology at Alternative Learning System (ALS)

CAVITE STATE UNIVERSITY NAIC
(Formerly CAVITE COLLEGE OF FISHERIES)
Bucana Malab, Naic, Cavite
WWW.CVSU-NAIC.EDU.PH

MEMORANDUM OF AGREEMENT
KNOWN ALL MEN BY THESE PRESENTS:

This MEMORANDUM OF AGREEMENT is made and entered into by and among

The CAVITE STATE UNIVERSITY NAIC, (in the interest of its Naic Campus), a public higher educational institution created and existing by virtue of Republic Act 5458, with office address at Barangay Barcos, Indang, Cavite, and represented herein by its University President, **DR. MA. AGNES P. NUESTRO**, who is duly authorized for this purpose and herein referred to as the "CVSU Naic";

-and-

"Department of Education- Region IV A- Schools Division Office of Cavite Province, a parallel learning system in the Philippines administered by the Department of Education with business address in Tanza, Cavite represented in this act by its Public School District Supervisor, **DR. EDGARDO L. AQUINO, ENGR. MIGNON CECILLE M. MANGOBA** and Education Program Specialist II-ALS, **MR. DIONITO F. MANGAO JR.** who is duly authorized for this purpose and herein referred to as DepEd ALS."

WITNESSETH:

WHEREAS, CVSU Naic, as a higher education institution, is mandated by its charter to provide advance instructions and professional training as well as undertake research and extension services on various fields;

WHEREAS, CVSU Naic through its Information Technology Department (ITD) and Research, Development, and Extension Services (RDES) Office, is implementing an extension program known as *TechBridge: Empowering Communities with IT Skills and Innovative Tools for Professional and Community Advancement*, which includes the following extension projects: "TechEdusBoost: Empowering the Educational Community Through Information and Communication Technology," "TechPathways: Advancing ALS Students Through Computer Literacy and Digital Skills," and "TechReady: Empowering Educators and Students with ARDAN's Mobile Technology for Disaster Risk Reduction."

WHEREAS, CVSU Naic is committed in providing the Recipient with technology-related knowledge, skill development, and, where applicable, the transfer of technology through its extension projects;

WHEREAS, DepEd ALS, is a parallel learning system in the Philippines administered by the Department of Education;

WHEREAS, DepEd ALS, is willing to cooperate and collaborate with CVSU Naic in the implementation of "TechBridge."

following Presidential Decree No. 242 in relation to Sections 86-71, Chapter 14 of E.O. No. 292, and with the Office of the Solicitor General (OSG).

VIII. Severability Clause
If any provision of this Agreement is held valid or unenforceable, such invalidity or unenforceability shall not affect the other provisions of this Agreement, which may be given effect without the invalid provision.

IX. Governing Law
This Agreement shall be governed by the laws of the Philippines.

IN WITNESS THEREOF, the parties through their duly authorized representatives hereto affix their signature this 08 day of August, 2025 at Naic, Cavite.

6.2 SiKTeK extension program

The Salin Impormasyon at Kaalaman sa Teknolohiya ng Kompyuter (SIKTeK) program has made significant strides in advancing IT literacy and bridging the digital divide in marginalized communities. Through its targeted training initiatives, active knowledge-sharing, and sustained support, the program has empowered educators and students to harness the power of technology for personal and professional growth. Fostering digital inclusion, the program not only transformed lives but also laid the foundation for a more equitable and connected society. As it continues to evolve, SIKTeK promises to be a beacon of hope and progress in the ongoing journey toward a digitally inclusive future.

DR. LEAH C. NAVARRO
 Campus Administrator
 This Campus

THRU CHANNEL:

Dear Maam:

A greeting of peace! This is to inform you that the approved extension project entitled *Salin Inpormasyon at Kaalaman sa Teknolohiya ng Kompyuter (SIKTeK)* in 2019 initiated by the Information Technology Department has also been approved for the extension of project duration until February 2025 with the letter dated February 26, 2024. Dr. Rossian V. Perea holds the designation as a Project Leader from November 2022 until July 2024 which Prof. Sherrilyn M. Rasdas vacated during her study leave.

In line with this, due to some changes in the roles and responsibilities of the ITD extensionist, I would like to properly endorse Prof. Sherrilyn Rasdas as a new Project Leader from August 2024 until the termination of the SIKTEK project until February 2025. Also, we kindly request your approval for the old and updated organizational staffing plan of the project for the academic years 2023-2024 and 2024-2025.

Sincere thanks in anticipation of your consideration regarding this matter.

Truly Yours,

SEMINAR/TRAINING PROPOSAL

I. Seminar/Training Proposal Format

A. Training/Seminar Title:	Awareness Seminar for University Students: "Zero Waste for Sustainable Campus and Communities: Integrating Gender and Development, Innovation, and Digitalization"
B. Proponent:	Gender and Development Office Management Department Officers Fisheries and Aquatic Sciences Department Research, Development, and Extension Services (RDES)
C. Participants:	Cvsu Naic Students
D. Venue:	TBA
E. Duration:	Half Day
F. Proposed Date:	December 1, 2023
G. Proposed Budget:	PHP 67,350.00

II. Rationale

The concept of "Zero Waste" is integral to achieving sustainable development goals and reducing the environmental footprint of our communities. University students are the future leaders and change-makers, and it is crucial to educate them about the significance of zero waste, and its intersections with gender and development, innovation, and digitalization. This seminar aims to promote awareness, critical thinking, and actionable steps towards a sustainable campus and community.

Figure 31. Approved activity proposal of the zero waste extension project

6.3.2 Zero Waste approved Memorandum of Agreement (MOA)

The memorandum of the campus wide monthly clean-up drive was approved and posted by the OSAS last September 4, 2019. The activities will be participated by different students' organization of the campus together with students and faculty to participate and supervise the clean-up drive in the campus.

2. Adequate and Relevant Projects/Activities to Achieve Objectives

To achieve its linkage objectives, the BSCS program of the Information Technology department implements a variety of relevant and purposeful projects and activities:

2.1 Curriculum enhancement is supported through initiatives such as an annual Industry Curriculum Review Forum, where professionals and alumni provide insights to align course content with current technological trends.

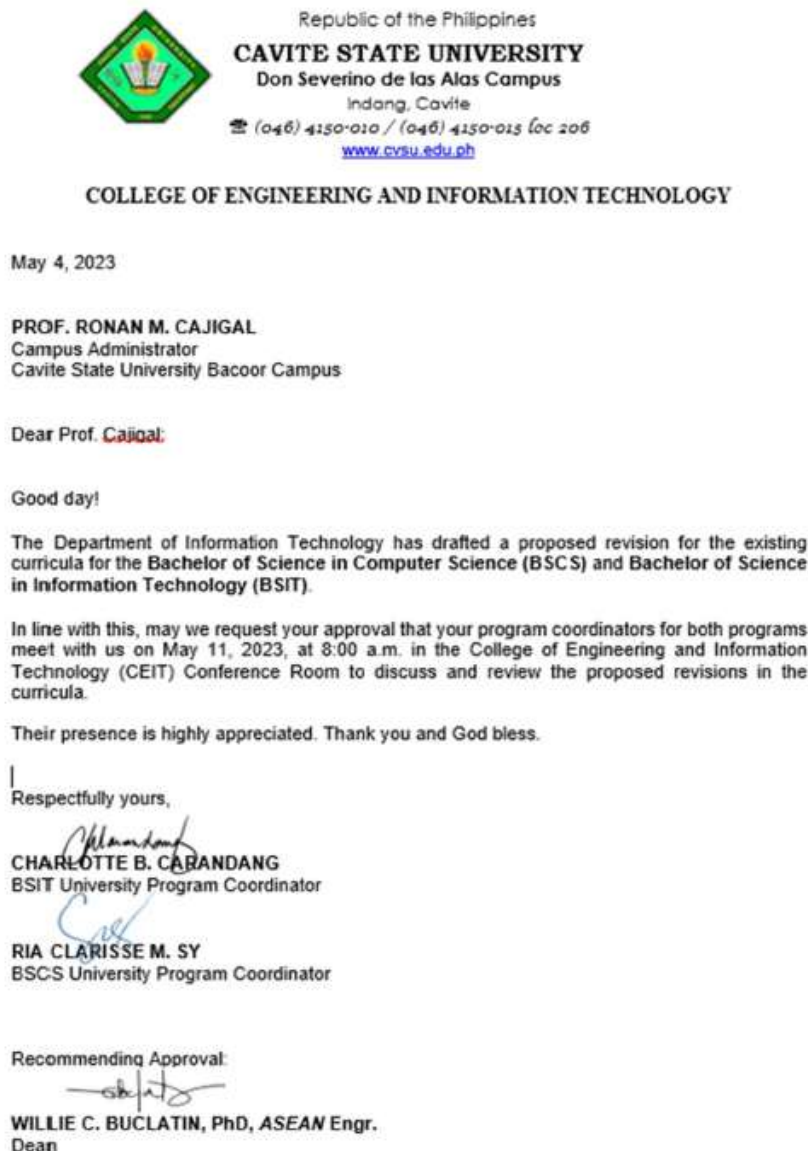

Figure 40. Invitation letter for curriculum enhancement
 (See 2023 05_11 BSITBSCS Curriculum Review Proceedings.pdf

)

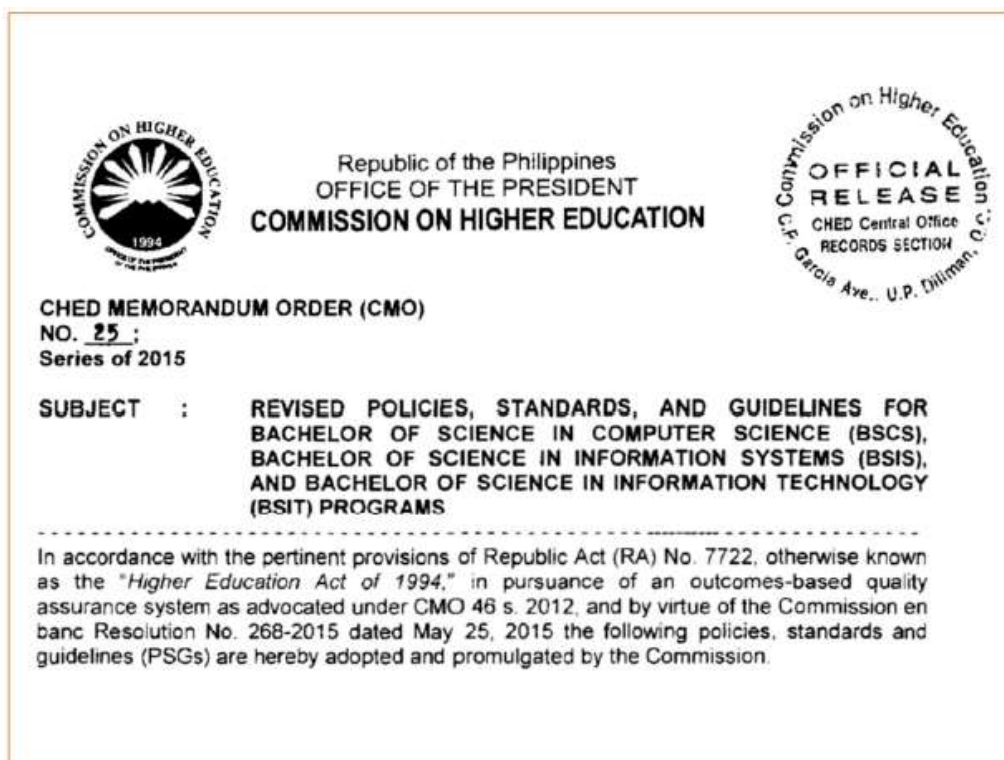

Figure 41. CMO

Figure 42. Photo documentation during curriculum review

2.2 Regular Tech Trends Lecture Series also bring in industry experts to discuss emerging fields such as artificial intelligence, cloud computing, and cybersecurity. To strengthen internship and OJT opportunities, the department organizes OJT Partnership Fairs to connect students with accredited companies and government agencies, alongside pre-internship readiness workshops that cover workplace ethics, communication, and professionalism.

I. RATIONALE

The Tech Expo 2025 aims to showcase Information Technology (BSIT) and Bachelor of Science students from the Information Technology Department and digital transformation as a platform for students to exhibit their projects, foster a deeper understanding of the role of technology in development, and promoting inclusivity, while also showcasing their development.

II. OBJECTIVES

1. To provide a platform for BSIT and Bachelor of Science students to showcase their technology and capstone projects to a broader audience.
2. To showcase how digital technology and digital transformation can empower students and foster a deeper understanding of the role of technology in development.
3. To promote the integration of technology in the field of technology.

D. Program Flow

4. To encourage students to enter their technology solutions can participate in the competition.
- 8:00 AM – 9:00 AM: Registration
 9:00 AM – 9:30 AM: Doxology, National Anthem and Welcome Remarks
 9:30 AM – 10:30 AM: Seminar on Technology Advancement with Gender and Development Perspectives
 10:30 AM – 12:00 PM: Thesis and Capstone Presentations (Batch 1)
 12:00 PM – 1:00 PM: Lunch Break
 1:00 PM – 3:00 PM: Thesis and Capstone Presentations (Batch 2)
 3:00 PM – 4:30 PM: Q&A
 4:30 PM – 5:00 PM: Closing Remarks, Awarding of Certificates, CvSU Hym and March

3. Systematic and Effective Procedures (Planning, Implementation, Monitoring, and Evaluation)

Cavite State University Naic is an ISO certified institution and along with this acknowledgement are the visions that the institute should have. The university strives for the continuous improvement of both product and services that they offer. To effectively achieve its function of establishing linkages, Cavite State University Naic follows a systematic procedure in formalizing a particular agreement with other institutions.

3.1 Procedure in Approval of Memorandum of Agreement

On procedure in the approval of memorandum of agreement or understanding (ICLO-QP-02), the Units of the University furnish a copy of the proposed Memorandum of Agreement/Understanding (MOA/MOU) or letter of intent (LOI) to the International and Local Collaborations and Linkages Office (ILCLO). The Units may directly forward the proposed MOA/MOU to the University President thru Legal Counsel for comments or review or the ILCLO will forward the proposed MOA/MOU in behalf of the unit involved. After the comments have been included in the revised document, the unit/ILCLO may request for the inclusion of the proposed MOA/MOU for presentation during the Administrative/Academic Council meeting for endorsement and subsequent approval of the Board of Regents (BOR). The proposed MOA/MOU will then be endorsed for review and approval of the BOR. Once approved, an excerpt from the BOR meeting related to this will be released to the unit/ILCLO. The version of the MOA/MOU approved by the BOR is ready for signing and implementation by the unit involved. The implementation of MOA will be periodically monitored and evaluated. There will be intervention, if needed, to ensure the continuous implementation of the said MOA.

Table 5. Procedure on the approval of Memorandum of Agreement (MOA)

Step	Procedure details
1	Submission of copy/draft of MOU/MOA to ILCLO All units shall submit the proposed MOU/MOA to ICLO together with the company profile of the possible linkage for evaluation.
2	Review of the document by the Office of the President and the Legal Office ILCLO will forward the proposed MOU/MOA in behalf of the proponent to the office of the University President and Legal Office for comments and review.
3	Inclusion of legal comments The legal office will forward the reviewed document to ILCLO, and the proponent will include all the legal comments in the document for the approval of their respective units.
4	Presentation of the documents to the Administrative Council After the comments have been included in the document and the approval of their respective units. ILCLO will request for the inclusion of the proposed MOU/MOA for presentation during the Administrative Council meeting for approval and subsequent endorsement to the Board of Regents (BOR).
5	Presentation to and approval of the BOR The proposed MOU/MOA will then be endorsed for review and approval of the BOR

(See Procedure in Approval of Memorandum of Agreement.docx

3.2 Student Internship

Bachelor of Science in Computer Science in Cavite State University Naic are required to conduct their on-the-job training. They need to comply on-the-job training activities for 240 hours. Figure below presents the process flow of student internship of Bachelor of Science in Computer Science students.

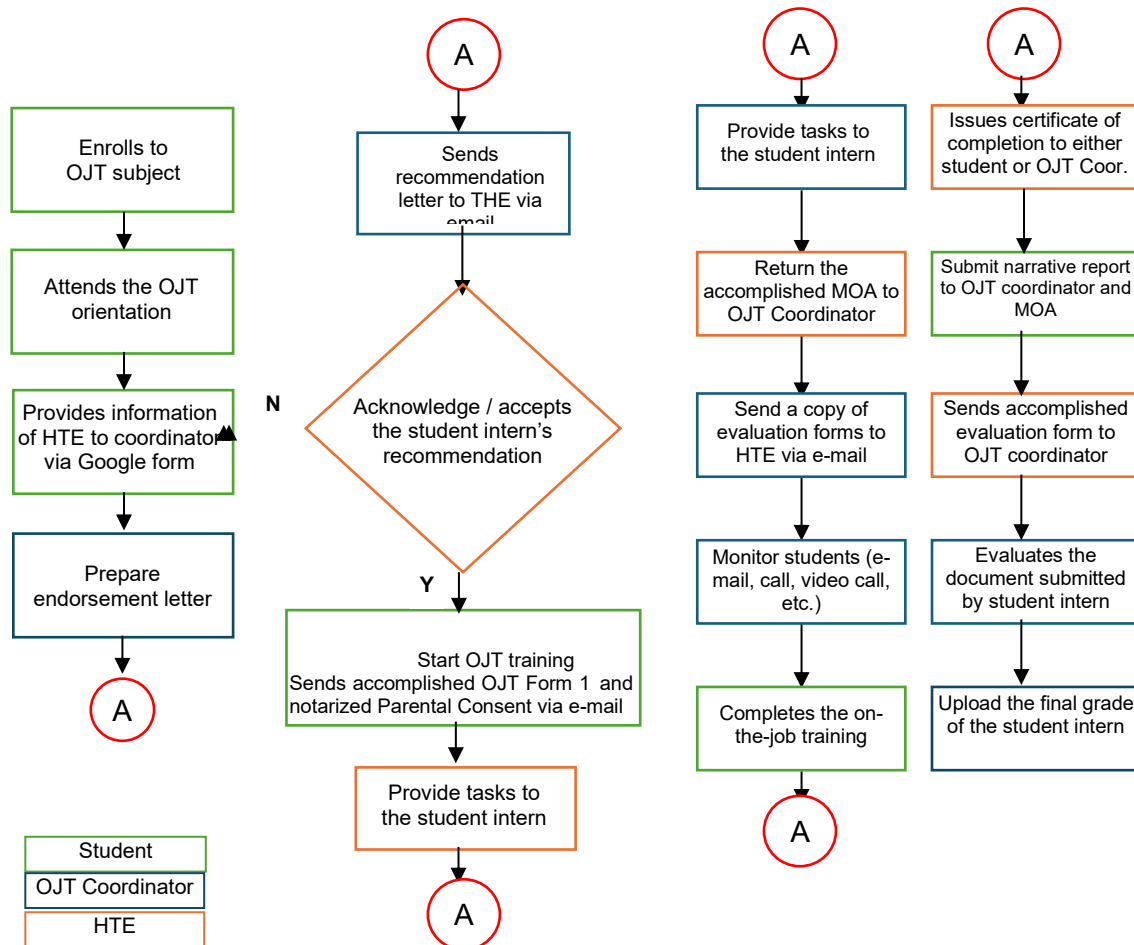

Figure 48. Flowchart of student internship of BSCS student in CvSU Naic

4. Reasonable Budget

Aligning financial management practices with its commitment to sustainable development, CvSU Naic ensured that every peso spent translated into meaningful outcomes for its beneficiaries. Figure 35-36 below shows the endorsement letter with its approved budget.

OFFICE OF THE VICE PRESIDENT FOR RESEARCH AND EXTENSION

Extension Services

13 May 2025

DR. MELBOURNE R. TALACTAC
 OIC, Vice President for Research and Extension
 This University

Dear Dr. Talactac:

Warm greetings from Extension Services!

This is to officially endorse to your office the Extension Project Proposal under the Ugnayan 2.0 CvSU Poverty Alleviation Program for your endorsement to the office of the University President:

COLLEGE / CAMPUS / UNIT	EXTENSION PROGRAM/PROJECT PROPOSAL TITLE	BUDGET (PhP)	DURATION	Remarks
NAIC CAMPUS	TechBridge: Empowering Communities with IT Skills and Innovative Tools for Professional and Community Advancement	200,000.00	June 2025 to July 2027	HQDG: CNA Report: M&E Plan: UREC Reviewer Evaluations:

Thank you very much for your usual support.

Respectfully yours,

JOSELYN F. ERSANDO
 Head, Monitoring & Evaluation Division

Recommending Approval:

RACQUEL G. AGUSTIN
 Director

Approved:

MELBOURNE R. TALACTAC, DVM, MS, PhD
 Vice President for Research and Extension

Telephone: (046) 482-2010
 Email: extension@cvsu.edu.ph

"Expanding Excellence. Strengthening Communities"

5. Provision of Materials and Other Resources

The Bachelor of Science in Computer Science (BSCS) program of Cavite State University Naic (CvSU Naic) has continually strengthened its academic and technical offerings through the strategic provision of materials and other essential resources. This initiative has been made possible through sustained collaborations with academic institutions, industry partners, government agencies, and non-governmental organizations. These partnerships have been pivotal in advancing the program's capacity to produce competent, industry-ready graduates.

One of the key developments has been the integration of learning materials and resources that reflect current industry trends and emerging technologies. These materials, developed in partnership with tech companies and academic collaborators, ensure that students acquire both theoretical foundations and practical, up-to-date skills relevant to today's digital landscape (see [MOU](#)).

To reinforce experiential learning, internship and on-the-job training (OJT) programs were established with leading technology companies and government agencies. These real-

world engagements have equipped students with hands-on experience in using industry-standard tools and practices, thereby bridging the gap between classroom instruction and professional application (see [MOA](#)).

Figure 52. OJT visit of OJT coordinator of BSCS students

Faculty development also received strong support through targeted initiatives such as technical training, professional certification programs, and industry immersion. These efforts have enabled instructors to stay abreast of the latest developments in the field and enhance their pedagogical strategies in line with evolving technological standards.

In the spirit of collaborative innovation, resources were dedicated to joint projects with partner institutions, allowing for knowledge exchange and the co-creation of technological solutions. This collaboration promotes academic progress while aligning project outputs with industry demands.

To support the career development of students, the program provided materials and resources for organizing career fairs, industry mentoring, and job placement initiatives. These platforms created direct connections between students and employers, strengthening employability and aligning academic preparation with actual job market requirements.

Beyond academia, partnerships with local government units and NGOs facilitated community-centered, technology-driven initiatives. These projects not only supported digital inclusion but also encouraged students to apply their knowledge in addressing societal challenges.

The BSCS program further expanded its global engagement through international academic exchanges, virtual collaboration, and benchmarking activities. Resources allocated for these initiatives enabled students and faculty to experience diverse educational systems and adopt global best practices.

In addition, the program actively engaged with business incubators, tech hubs, and startup accelerators, providing students access to mentorship, technical support, and funding opportunities. These partnerships nurtured entrepreneurial mindsets and helped students transform innovative ideas into viable tech-based enterprises.

Industry-led seminars, hackathons, and project-based activities were also supported through material provision. These immersive activities provided real-time exposure to practical challenges and fostered skill development in a collaborative, competitive environment.

The program has ensured long-term sustainability by investing in institutional partnerships that promote ongoing curriculum enhancement, resource sharing, and collaborative research and development. These enduring relationships are instrumental in keeping the BSCS program relevant, competitive, and responsive to both academic and industry needs.

The provision of materials and other resources has been a cornerstone in enhancing the BSCS program's quality and relevance. Through multi-sectoral collaboration and sustained support, the program continues to empower students and faculty to thrive in an ever-evolving technological world.

6. Participation of a Significant Number of Faculty/Staff/Student Community in Major Projects/Activities

The Bachelor of Science in Computer Science (BSCS) program has demonstrated a strong commitment to fostering a dynamic and collaborative academic environment through the active participation of faculty, staff, and students in a wide range of major projects and initiatives. These engagements, facilitated by strategic linkages with industry, government, and academic partners, have significantly enriched the educational experience, strengthened professional competencies, and promoted meaningful contributions to society.

To cultivate a collaborative culture reflective of real-world demands, the program encouraged and supported the participation of its academic community in major academic and industry-led activities. Faculty, staff, and students actively took part in innovation challenges, tech forums, collaborative research, and program development initiatives that bridged the gap between academic theory and practical application.

Partnerships with technology companies and government agencies provided the platform for hands-on experience. Faculty and students worked side by side on joint projects, enhancing their understanding of current technologies and policies. These

collaborations also deepened academic-industry linkages, resulting in more aligned learning outcomes and better preparation for workforce integration.

Faculty and staff development was prioritized through targeted training programs, industry certifications, and immersion experiences. Their involvement in major initiatives—ranging from curriculum design to software development and policy formulation—boosted their expertise while reinforcing the institution's capacity to contribute to innovation in the information technology sector.

The program has also engaged extensively in inter-institutional partnerships. Faculty, staff, and students collaborated with other schools and organizations on joint research, extension programs, and technical development projects. These interactions fostered a vibrant community dedicated to generating knowledge and developing practical solutions to contemporary challenges.

Participation in career-related activities such as job fairs, industry mentoring, and placement programs was another key area of engagement. These events facilitated direct interaction with employers, expanded career opportunities, and aligned academic preparation with industry expectations.

Community-based initiatives were equally prioritized. Through partnerships with local government units and NGOs, the academic community implemented technology-based solutions for social development. These projects addressed real-world problems, from digital literacy campaigns to e-governance tools, highlighting the relevance and impact of the BSCS program in the broader community.

5.1. BSCS Linkages

IT Department faculty members and BSCS students has been actively involved in carrying out the activities planned in relation to its partnership with the program to certain institutions.

Table 7. BSCS students and faculty linkage partner.

Agency/Institution	Nature of Linkage
Barangay Bucana Malaki, Naic, Cavite	<ul style="list-style-type: none"> • ARDANs technology transfer • SiKTeK extension project
College of Criminal Justice (CCJ) in Cavite State University Main Campus	<ul style="list-style-type: none"> • ARDANs technology transfer with integration of basic life support and maneuver training • Siktek extension project
Bureau of Fire Protection (BFP) https://bfp.gov.ph	<ul style="list-style-type: none"> • ARDANs technology transfer • SiKTeK extension project
Alternation Learning System (ALS) Tanza	<ul style="list-style-type: none"> • ARDANs technology transfer • Salin Inpormasyon ng Kaalaman at Teknolohiya sa Kompyuter (SiKTeK)
Lansangan Farm	<ul style="list-style-type: none"> • ICT-AGMAS • Technology transfer

7. Well-documented (Accomplishment Reports and Portfolios)

The BSCS program ensures that all linkage activities are systematically documented through comprehensive accomplishment reports and organized portfolios. These records provide clear evidence of partnerships, faculty and student engagements, industry collaborations, and professional development initiatives. The documentation serves not only as proof of compliance but also as a valuable reference for monitoring progress, evaluating outcomes, and sustaining continuous improvement in linkages and external relations.

Table 8. Accomplishment report from 2019-2025

Year	Accomplishments
2019	<p data-bbox="272 322 1439 427">The Board of Resolution (BOR) approval of Ugnayan 2.0 gave opportunity to anchor the Batangan 2.0 Extension Program composed of five projects from different department of the campus.</p> <p data-bbox="272 456 1439 629">Environmental Program Officers and Project leader Prof. Emelita Sto. Tomas conducted a consultation meeting with student leaders and office personnel the Office of the Students Affairs and Services (OSAS). 8. Awards and Distinction and Best Practices Relevant to Instruction

The BSCS program highlights its commitment to quality instruction through the recognition of awards, distinctions, and best practices that reflect academic excellence and innovation. Faculty and students have been acknowledged in various fields, showcasing

achievements that enhance the program's credibility and reputation. At the same time, the adoption of best practices in teaching and learning ensures that instruction remains responsive, outcomes-based, and aligned with industry standards, thereby strengthening the program's overall academic impact.

OFFICE OF THE UNIVERSITY PRESIDENT

**EXCERPT FROM THE MINUTES OF THE 98TH REGULAR MEETING OF THE
 CAVITE STATE UNIVERSITY BOARD OF REGENTS HELD ON SEPTEMBER 26, 2024,
 10:00 A.M., AT THE BOARDROOM, 2ND FLOOR ADMINISTRATION BUILDING,
 CAVITE STATE UNIVERSITY MAIN CAMPUS, INDANG, CAVITE**

Present:

Hon. Commissioner Marita Canapi, BOR Chairperson
Hon. Hernando D. Robles, University President
Hon. Mark O. Go represented by **Hon. Crispin Diego "Ping" Remulla**, House Committee on
 Higher and Technical Education
Hon. Emelita P. Bagsit, Regional Director, DOST IV-A
Hon. Carmel P. Matabang, OIC-Regional Director, NEDA IV-A
Hon. Fidel L. Libao, Regional Executive Director, DA IV-A
 Represented by: **Dr. Dario M. Huelgas**
Hon. Gabriel Arubio, Private Sector Representative
Hon. Rufino A. Malanyaon, Private Sector Representative
Hon. Zannie I. Gamuyao, Faculty Federation President
Hon. Julianne Gayle A. Luna, CSG Federation President
Hon. Noelle L. Legaspi, Alumni Regent

**RESOLUTION NO. 48
 SERIES OF 2024**

RESOLVED, AS IT IS HEREBY RESOLVED, that upon its agreement, the Board
 approved the following:

- Institutional Membership to Cisco Networking Academy
- Institutional Membership to Oracle Academy

APPROVED

CERTIFIED TRUE AND CORRECT

CATHERINE J. QUINONES
 Board Secretary

Attested by:

DR. HERNANDO D. ROBLES, CEO VI
 University President

SHINE CvsU: Sustaining Holistic Innovation that Nurtures Excellence in CvsU

7.2 Welcome letter from Oracle Academy

Welcome to Oracle Support

Cavite State University - Naic Campus
Ricky Jay Riel
rickyjayriel@cvsu-naic.edu.ph
Bucana Malaki
Naic
4110

On behalf of Oracle Corporation, we welcome you to the Oracle Support Services. We are committed to assist you in protecting your investment.

With your purchase, you now have access to critical information related to your products on the Oracle website at <http://www.oracle.com> for product descriptions, policies, support needs, and more.

Depending on the products you purchased, you may access Oracle Support Services through one of the following channels:

- **My Oracle Support**

To register for My Oracle Support, the Technical Support Services, you must use your organization name. The person to register will be the primary person managing your My Oracle Support account. Multiple Customer Users can be added to your account. If you are the Technical Support Services Administrator, please go to <http://www.oracle.com> to register.

- Review [My Oracle Support](#)
- Learn more about [Oracle Support Services](#)

- **Support Interfaces for**

If your product is part of a larger system, you may receive support through the system's interface. For more information, please go to: <http://www.oracle.com>

- **Oracle Hospitality or Field**

If you are an Oracle Hospitality or Field representative, please go to <http://www.oracle.com> for more information.

For more information, please visit www.oracle.com to learn about registering for a support account.

Technical Contact Information

As the technical contact for Cavite State University - Naic Campus, you are the individual designated within your organization who may contact Oracle Support Services to resolve technical issues.

If your order with Oracle allows international deployment of programs to your subsidiaries or includes hardware that has been relocated outside the country of delivery, please communicate the relevant SI in this email to persons in those countries who will be technical contacts with Oracle.

Technical Support Service and Products Details

Order Number: 41440101
Cavite State University - Naic Campus
Account Number: 28319400

Service Start Date	Service End Date	Service Level
02-APR-2024	31-MAR-2026	Software Update License & Support

Location : Bucana Malaki, Naic, , 4110

Product	SI	MLPN	Serial Number	Quantity
Oracle Academy: Institution Level License Bundle - Nonstandard User	84000298			1

Note: Please call Oracle's local country [Support Hotline](#) if you are not the designated technical contact or if you have any additional questions.

Oracle provides a complete and fully integrated global technical support service portfolio supported by over 50,000 development engineers and customer support specialists ready and able to support you. We hope you will take advantage of our outstanding technical support services including 24/7 technical assistance, powerful proactive support resources, and product updates.

Welcome to Oracle and enjoy your access to Oracle Support Services.

Sincerely,
Oracle Support Services

7.3 Oracle Academy faculty membership.

3 of the BSCS professors are member of Oracle Academy as Faculty.

ORACLE
Academy

27 June, 2025

To Whom It May Concern:

Please be advised that Michelle C. Tanega has an active Oracle Academy Membership until 31 March, 2026.

As a member of Oracle Academy, this individual has rights granted to Cavite State University - Naic Campus where they are included within the Oracle Academy Institutional Membership Agreement and detailed at <https://academy.oracle.com/en/membership-benefits.html>.

With regards,
Oracle Academy

ORACLE
Academy

27 June, 2025

To Whom It May Concern:

Please be advised that Angelito L. Catajan Jr. has an active Oracle Academy Membership until 31 March, 2026.

As a member of Oracle Academy, this individual has rights granted to Cavite State University - Naic Campus where they are included within the Oracle Academy Institutional Membership Agreement and detailed at <https://academy.oracle.com/en/membership-benefits.html>.

With regards,
Oracle Academy

BEST PRACTICES FOR THE BSCS PROGRAM

The BSCS program at CvSU-Naic implemented several best practices to strengthen its linkages with various sectors. The program established strategic industry partnerships by signing MOUs with major tech companies like Accenture, Globe, PLDT, and IBM Philippines.

To improve practical training, the program required 240 hours of supervised industry immersion and developed structured internship tracks in software development, networking, and data science. A work-study program with partner companies was introduced, along with a quality assurance system for internship evaluations.

The BSCS program forged strategic partnerships with Oracle Academy and Cisco Networking Academy to enhance its curriculum. Oracle Academy integration provided database and Java programming courses, faculty training, and cloud platform access, while Cisco Networking Academy delivered CCNA certification modules and established a networking lab. These collaborations enabled students to earn industry-recognized certifications, improved practical training through cloud and simulation tools, and boosted graduate employability. The successful implementation demonstrated the value of industry-academe partnerships, prompting considerations to expand similar collaborations with other major tech companies.

FUTURE PLANS

To ensure the **Bachelor of Science in Computer Science (BSCS)** program achieves its objectives of producing highly skilled, innovative, and socially responsible graduates, strategic area linkages will be strengthened across industry, academia, government, and the community:

Industry partnerships will be expanded through mandatory internships with leading tech companies, certification programs in collaboration with global tech giants (such as Cisco,

AWS, and Google), and the establishment of an Industry Advisory Board to keep the curriculum aligned with workforce demands. Faculty internships will also be introduced to allow educators to gain hands-on industry experience, ensuring that their teaching remains updated and relevant to current technological trends. Additionally, regular hackathons, coding competitions, and guest lectures by industry experts will bridge the gap between classroom learning and real-world applications.

Academic and research collaborations will be prioritized by forming partnerships with top universities and research institutions for joint projects, faculty exchanges, and student immersion programs. Integration of online micro-credentials (such as Coursera and edX specializations) into the curriculum will ensure continuous upskilling, while research grants and paper publications with institutions like IEEE and ACM will foster innovation.

Government and community engagement will focus on applying computer science for social good, including public-sector tech projects with agencies like DICT and DOST, community-based app development for NGOs, and free coding boot camps for underserved youth. These initiatives will reinforce the program's commitment to digital inclusion and ethical computing.

Alumni and professional networks will be strengthened through mentorship programs, job fairs, and LinkedIn networking groups to enhance career opportunities for graduates. Meanwhile, **curriculum enhancements** will introduce emerging tech specializations (AI, cybersecurity, blockchain) and require capstone projects sponsored by industry partners, ensuring graduates are future-ready.
